

FOYER A THE SHELL

TECHNICAL SHEET

MAIN CHARACTERISTICS

The extensive foyer, the focal point of the venue, faces in the direction of the sea and is a versatile space where events can be organised independently. Large and bright, the area beneath the shell can be set up to host catering services, showrooms, accreditation desks, exhibitions and shows.

Entrance A opens directly onto the vast city park that connects the venue to both the old city centre and the beach via a shared-use path. The immediate external area can be used as an events space.

FEATURES:

- Situated on the ground floor
- Direct access to underground car parks via stairways and lifts
- Cloakroom at level -2 (5,000 garments)
- Floor outlets for exhibitions (power supply, sockets)
- 2 permanent accreditation desks
- Digital signage monitors
- Customisable external Ledwall

PROJECT IMPLEMENTATION AND DEVELOPMENT ON REQUEST:

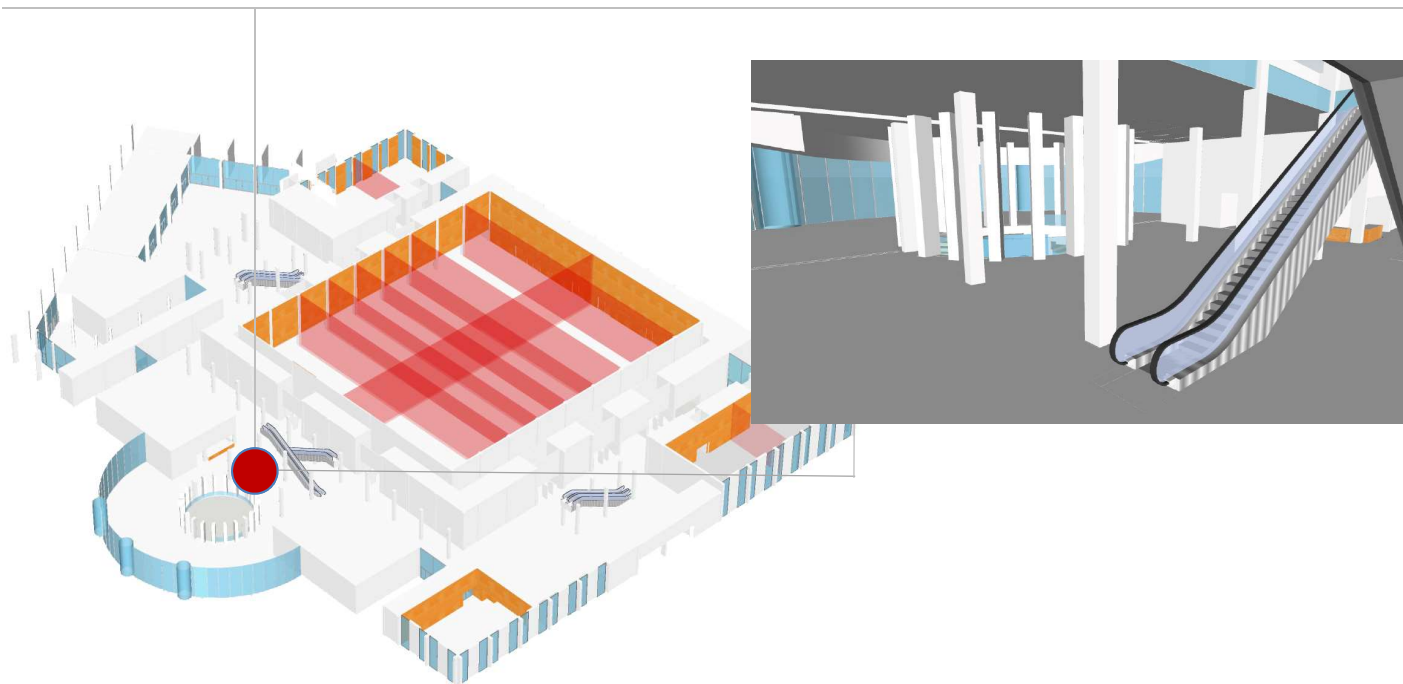

- Customisable external lighting on the «shell»
- Scenographical lighting
- Possible to extend event into external areas
- Spaces suitable for dinners and performances, photo shoots, shows, exhibits, lounge areas, etc.
- Other set-up options available based on feasibility
- High density Wi-Fi coverage

The origin of the name

The foyer is characterised by an enormous shell structure that recalls and pays homage to an important element of the local area - the sea, which is strongly linked to the spirit of enterprise of this place - as well as evoking the architecture and images of the Renaissance period. Suspended on steel pillars, the shell houses the large amphitheatre and has become a distinctive feature that makes Rimini recognisable on the international stage.
