01. room location, section floor 1
02. inside view, 1.540 fixed seats

Origin of the name of the historical sites in Rimini

The Amphitheatre was built under the rule of the Emperor Hadrian (II century A.D.) and hosted the gladiatorial combats much loved by the Romans. The massive structure was later incorporated into the city walls. The remains of the building are just a small part of the enormous monument that held up to 15,000 spectators on its steps.
