- Suspended video projection system suitable for various formats in every part of the room
- Front projection system in various sizes and video projector
- 1 component video camera and 1 composite video camera
- Extensive audio, video and lighting connections
- Mobile video production
- High density Wi-Fi coverage
- LCD monitor on both Presidential table and podium
- 4 entrance points to the room
- Customisable digital signage at entrance to room

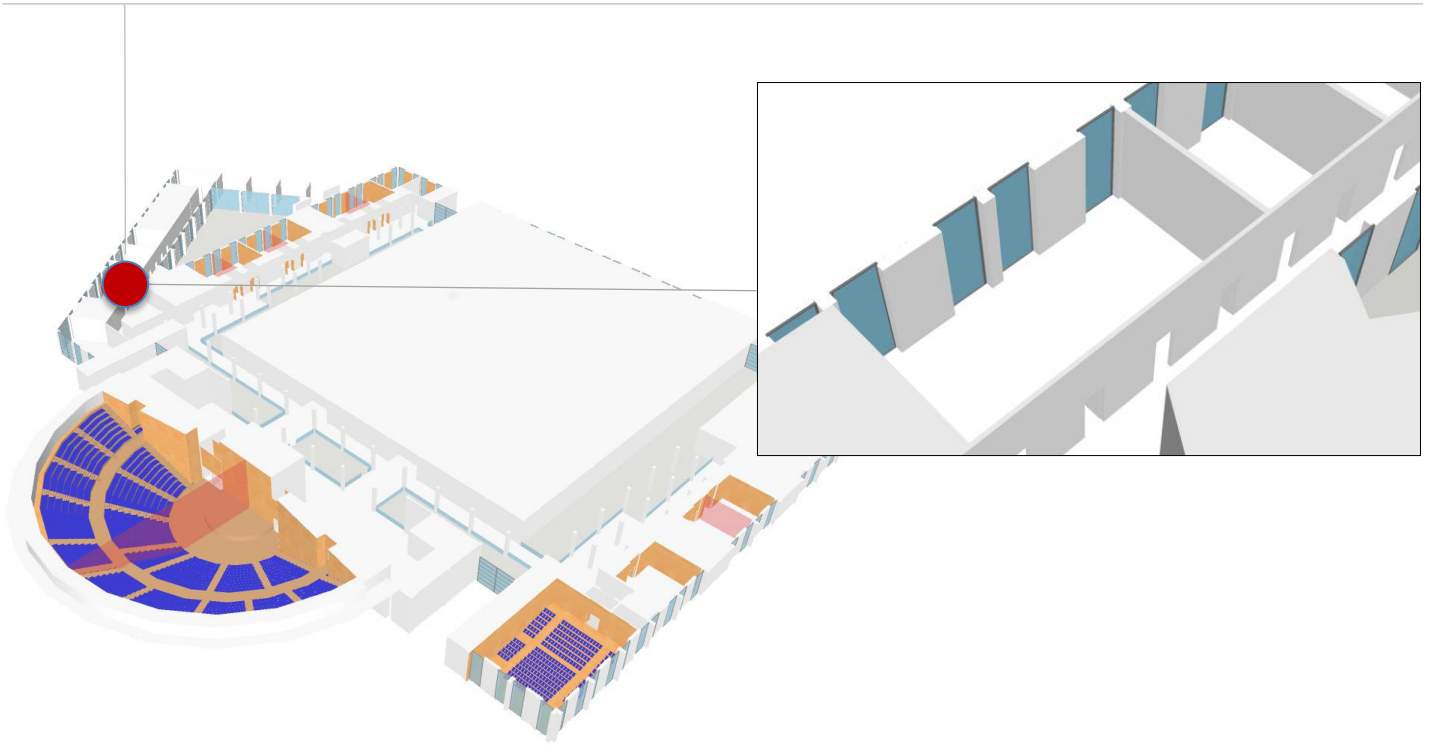

### The origin of the name

The Lavatoio Room takes its name from the plain brick wash house located in Borgo San Gaudenzo, an area of the city in the direction of the hills, that lies beyond Porta Montanara and the Roman walls. It was built in the 1800s when cities began constructing public utility buildings to offer better conditions to their citizens. The people no longer had to take their laundry and wooden washboards to the freezing waters of the river.
