# CONVIVIO

enogastronomia  
cultura, design

convivio enogastronomia  
cultura  
design

## MAIN FEATURES

A space designed to enhance the Palacongressi experience, integrating food culture with the activities lined up for the various events. Accessible from both inside the venue (the Domus foyer) and from the external portico of Via della Fiera, it is equipped with professional kitchen equipment and has various seating options: a dining area to savour the dishes prepared, and a relaxing lounge area with sofas. Seated dining hosts 35 guests, whereas the lounges at the entrance and on the mezzanine can accommodate up to 15 people. The space is ideal for small-scale aperitifs or meetings, and especially for cooking demos, thanks to the layout of the kitchen equipment which can be used directly by the guests. The elegant furnishings and attention to detail, coupled with its particular location within the venue make it a versatile and special place which creative event organisers can use as an element of enrichment, and even surprise, during their events.

## FACILITIES FEATURES

- Natural light
- Selectable lighting
- High density Wi-Fi
- Autonomous air conditioning system

- lounge area with *Living* sofas and chairs, accommodating 10 guests
- 37" screen TV
- small utility room (4.5 sqm)

## Convivio

In many Mediterranean cultures and particularly in Italy, sharing a meal plays a socially determining role: the shared ritual of food unites people, brings them closer to a common experience. The term "Convivio" originates from "sharing" and for this reason we have chosen a name that not only conjures up the world of food, but it immediately declares an intention to bring people together as friends.
